

UChat Video Platform — Portal Navigation Menus & Page Content Specifications

Table of Contents

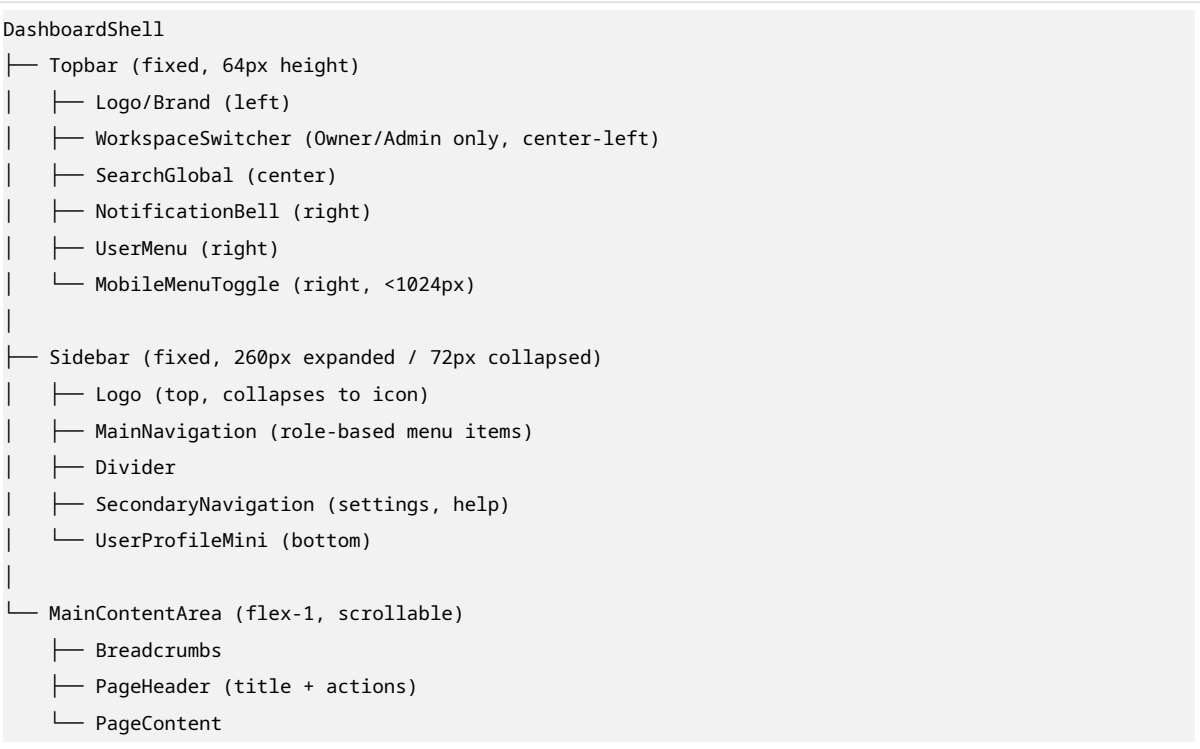

- 1. Global Navigation Rules
- 2. Owner Portal
- 3. Admin Portal
- 4. User Portal
- 5. Editor Portal
- 6. Shared/Common Pages

1. Global Navigation Rules

1.1 Navigation Architecture Principles

- **Role-Based Rendering:** Navigation items render conditionally based on `workspace_members.role`
- **Active State:** Current route highlighted with distinct visual indicator (left border + background tint)
- **Collapsed Mode:** Sidebar collapses to icon-only (72px) on desktop, drawer on mobile
- **Workspace Context:** All navigation scoped to selected workspace (except Owner global views)
- **Badge Indicators:** Unread notifications, pending tasks, overdue items shown as red/amber badges
- **Keyboard Navigation:** Full accessibility (Tab, Enter, Escape, Arrow keys)

1.2 Navigation Component Hierarchy

1.3 Responsive Breakpoints

Breakpoint	Sidebar	Navigation
>= 1280px	Expanded 260px	Full text + icons
1024px - 1279px	Collapsible 72px	Icons only, tooltip hover
< 1024px	Hidden, slide-in drawer	Full mobile drawer

1.4 Badge Color System

Type	Color	Example
Unread notifications	Red (bg-red-500)	“3”
Pending tasks	Amber (bg-amber-500)	“5”
Overdue items	Red pulse animation	“1”
Active count	Blue (bg-blue-500)	“12”
Success/Complete	Green (bg-green-500)	“8”

2. Owner Portal

Theme: Dark sidebar (bg-slate-900), Indigo accents (text-indigo-400)
Indicator: Crown icon 👑 next to portal name
Context: Cross-workspace view — sees ALL workspaces

2.2 Navigation Items Detail

#	Icon	Label	Route	Badge	Sub-items	Active Pattern
1	LayoutDashboard	Dashboard	/dashboard/ owner	None	None	Exact match
2	Building2	All Workspaces	/dashboard/ owner/ workspaces	Workspace count	None	Starts with /workspaces
3	PlusCircle	Create Workspace	/dashboard/ owner/ workspaces/ new	None	None	Exact match
4	Plug	API Management	/dashboard/ owner/apis	API count (optional)	None	Starts with /apis
5	FolderKanban	All Projects	/dashboard/ owner/ projects	Total projects	None	Starts with /projects
6	Settings	Settings	/dashboard/ owner/ settings	None	Profile, Security, Billing	Starts with /settings
7	Bell	Notifications	/dashboard/ owner/noti- fications	Unread count	None	Exact match
8	HelpCircle	Help & Support	External/ Modal	None	None	—

2.3 Page: Dashboard (/dashboard/owner)

Page Header:

- Title: “Owner Dashboard”
- Subtitle: “Overview of all your workspaces”
- Actions: [Date Range: Last 30 days ▼] [Export Report]

Content Sections:

Section	Position	Content	Data Source
Stats Row	Top	4 cards: Total Workspaces, Total Projects, Active Members, Connected APIs	Aggregated from all workspaces

Table 4 – continued

Section	Position	Content	Data Source
Workspaces Chart	Left (60%)	Bar chart: Projects per workspace (last 30 days)	workspaces + projects
Activity Feed	Right (40%)	Timeline of recent actions across all workspaces	activity_logs
Attention Table	Bottom	Workspaces with issues (API errors, suspended, etc.)	workspaces + workspace_apis

Stats Cards Detail:

12	156	48	8
Workspaces	Total Projects	Active	API
	Across All	Members	Conn
	Workspaces		
[↑ 2 this month]	[↑ 24 this month]	[↑ 5]	[↑ 1]

Activity Feed Items:

- “Admin John invited User Sarah to ‘Acme Corp’ — 2 mins ago”
- “Project ‘Q3 Promo’ published to YouTube — 15 mins ago”
- “Workspace ‘Beta Inc’ API key expired — 1 hour ago”
- “New workspace ‘Gamma LLC’ created — 3 hours ago”

2.4 Page: All Workspaces (/dashboard/owner/workspaces)

Page Header:

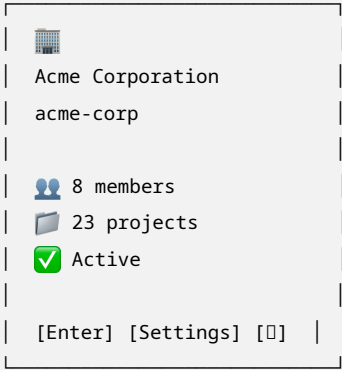

- Title: “All Workspaces”
- Subtitle: “Manage and monitor all your client workspaces”
- Actions: [+ Create Workspace] [Grid/Table Toggle]

Content Sections:

Section	Content
Toolbar	Search input, Status filter (Active/Suspended/Archived), Sort (Name/Date/Projects), View toggle (Grid/Table)
Grid View	Cards: Logo, Name, Slug, Member count, Project count, Status badge, Action buttons (Enter, Settings, Archive)

Table 5 – continued

Section	Content
Table View	Columns: Name, Slug, Members, Projects, Status, Subscription, Created, Actions

Workspace Card:

2.5 Page: Create Workspace (/dashboard/owner/workspaces/new)**Page Header:**

- Title: “Create New Workspace”
- Back link: “← Back to Workspaces”

Form Fields:

Field	Type	Required	Validation	Notes
Workspace Name	Text	Yes	3-100 chars	Auto-generates slug
Slug	Text	Yes	Unique, kebab-case	Editable
Description	Textarea	No	Max 500 chars	Optional
Logo	File Upload	No	Max 2MB, PNG/JPG/SVG	Preview shown
Subscription Tier	Radio	Yes	Basic/Pro/Enterprise	Default: Basic
Initial Admin Email	Email	No	Valid email	Sends invite
Generate Temp Password	Checkbox	—	—	Default: checked

Actions: [Cancel] [Create Workspace]

2.6 Page: Workspace Detail (/dashboard/owner/workspaces/[id])

Page Header:

- Workspace logo + name
- Slug: `acme-corp.workspace.uchat.com`
- Status badge: Active/Suspended/Archived
- Created date + Subscription tier
- Actions: [Act As Admin ▼] [Edit] [Archive]

Tabs:

Tab	Route	Content
Overview	<code>/[id]</code>	Quick stats, recent activity
Members	<code>/[id]/members</code>	Member table with roles
Projects	<code>/[id]/projects</code>	All projects (read-only)
APIs	<code>/[id]/apis</code>	Configured integrations
Settings	<code>/[id]/settings</code>	Workspace config
Activity	<code>/[id]/activity</code>	Full activity log

“Act As” Dropdown:

- Act as Admin → `/dashboard/admin?workspace=[id]`
- Act as User → `/dashboard/user?workspace=[id]`
- Act as Editor → `/dashboard/editor?workspace=[id]`

2.7 Page: API Management (/dashboard/owner/apis)

Page Header:

- Title: “API Management”
- Subtitle: “Manage third-party integrations across all workspaces”
- Actions: [+ Add API] [Export Report]

Content Sections:

Section	Content
Filter Bar	Search, Provider filter (Voice/Video/Edit/Publish), Status filter (Active/Error/Warning)
API Table	Columns: API Name, Provider, Workspace, Status, Last Used, Health, Actions (Test, Edit, Delete)
Health Dashboard	Pie chart: Healthy vs Warning vs Error. Recent failures list.

API Row:

ElevenLabs Voice	Acme Corp	✔ Active	2 mins ago	🟢 Healthy	[Test] [Edit] [Delete]
HeyGen Video	Acme Corp	✔ Active	1 hour ago	🟢 Healthy	[Test] [Edit] [Delete]
Zernio Publish	Beta Inc	✖ Error	3 days ago	🔴 Failed	[Fix] [Edit] [Delete]

2.8 Page: Cross-Workspace Projects (/dashboard/owner/projects)

Page Header:

- Title: “All Projects Across Workspaces”
- Subtitle: “Inspect projects from all your workspaces”

Content Sections:

Section	Content
Filter Bar	Search, Workspace dropdown, Status filter, Stage filter, Date range
Project Table	Columns: Title, Workspace, Creator, Status, Stage, Progress, Deadline
Pagination	Page numbers, items per page selector

Row Actions: View (read-only detail), Export

2.9 Page: Owner Settings (/dashboard/owner/settings)

Layout: Settings sidebar + content area

Sidebar Tabs:

Tab	Route	Content Fields
Profile	/settings	Avatar, Full Name, Phone, Bio
Security	/settings/security	Change Password, 2FA toggle, Active Sessions
Billing	/settings/billing	Subscription plan, Payment method, Invoices table
Notifications	/settings/notifications	Email preferences, In-app settings, Push settings
Platform	/settings/platform	Global defaults, Branding (if applicable)

3. Admin Portal

Theme: Dark sidebar (bg-slate-800), Emerald accents (text-emerald-400)

Indicator: Shield icon  + workspace name in topbar

Context: Single workspace — manages ONE workspace’s team and projects

3.2 Navigation Items Detail

#	Icon	Label	Route	Badge	Active Pattern
1	LayoutDashboard	Dashboard	/dashboard/admin	None	Exact match
2	FolderKanban	All Projects	/dashboard/admin/projects	Active project count	Starts with /projects
3	Users	All Members	/dashboard/admin/team	Total member count	Starts with /team
4	User	Users	/dashboard/admin/team/users	User count	Exact match

Table 11 – continued

#	Icon	Label	Route	Badge	Active Pattern
5	PenTool	Editors	/dashboard/ admin/team/ editors	Editor count	Exact match
6	CalendarDays	Calendar	/dashboard/ admin/calendar	Upcoming deadlines	Starts with /calendar
7	Settings	Workspace Settings	/dashboard/ admin/ workspace- settings	None	Exact match
8	Bell	Notifications	/dashboard/ admin/ notifications	Unread count	Exact match

3.3 Page: Admin Dashboard (/dashboard/admin)

Page Header:

- Title: “Dashboard”
- Subtitle: “Acme Corp — Workspace Overview”
- Actions: [+ New Task] [View Calendar]

Content Sections:

Section	Position	Content
Stats Row	Top	4 cards: Users, Editors, Projects This Month, Published This Month
Projects Status	Left (50%)	Donut chart: Idea, Script, Voice, Video, Editing, Published counts
Upcoming Deadlines	Right (50%)	List: Today (red), Tomorrow (amber), This week
Projects Needing Attention	Bottom	Table: Stuck projects (>2 days in one stage), with reassign action
Recent Team Activity	Bottom	Timeline: Last 10 actions by team members

Attention Table Columns: Project | User | Stage | Stuck For | Action —|—|—|—|— Holiday Ad | Sarah | Editing | 3 days | [Reassign] [Message] Tutorial | Mike | Voice | 2 days | [Check] [Message]

3.4 Page: All Projects (/dashboard/admin/projects)

Page Header:

- Title: “All Projects”
- Subtitle: “All projects in Acme Corp”
- Actions: [+ New Project] [Export CSV]

Content Sections:

Section	Content
Filter Bar	Search, Status filter, Creator dropdown, Stage filter, Priority filter, Date range
Project Table	Columns: Checkbox, Title, Creator, Assigned To, Stage, Progress bar, Priority, Deadline, Actions
Bulk Actions	Delete, Change Stage, Reassign (appears when rows selected)
Pagination	Standard pagination

Row Actions (hover):

- View → Admin Project Detail
- Edit → Inline or navigate
- Reassign → Dropdown of users
- Change Deadline → Date picker
- Delete → Confirmation dialog

3.5 Page: Admin Project Detail (/dashboard/admin/projects/[id])

Page Header:

- Title: Project name
- Creator info: “Created by Sarah ·Last updated 2 hours ago”
- Actions: [Edit] [Reassign] [Delete] [Force Advance ▼]

Content Sections:

Section	Position	Content
Project Info Card	Left (40%)	Status, Priority, Assigned To (editable), Deadline (editable), Progress bar, Description, Admin-only notes
Timeline	Right (60%)	Visual stage tracker (same as user view but admin can force advance)

Table 14 – continued

Section	Position	Content
Assets	Bottom	Script (view/edit), Voice (play/regenerate), Video (play/regenerate), each with download
Activity Log	Bottom	Chronological list of all actions on this project

Admin-Only Features:

- “Force Advance Stage” dropdown: Can manually set any stage to complete
- “Admin Notes” textarea: Only visible to admins/owner
- “Reassign” button: Change assigned user

3.6 Page: Team Management (/dashboard/admin/team)

Page Header:

- Title: “Team Management”
- Subtitle: “Manage members of Acme Corp”
- Actions: [+ Invite Member]

Content Sections:

Section	Content
Role Tabs	All, Users, Editors, Support, Viewers, Pending
Filter Bar	Search, Role filter, Status filter
Member Cards	Avatar, Name, Email, Role badge, Status, Projects count, Joined date, Actions (View, Message, Change Role, Remove)
Table View Toggle	Grid/Table switch

Member Card:

3.7 Page: Users (/dashboard/admin/team/users)

Page Header:

- Title: “Users”
- Subtitle: “Video creators in your team”

Content Sections:

Section	Content
Stats	Total users, Active projects, Avg completion time
User Table	Name, Email, Projects Created, Videos Published, Avg Time, Status, Actions
Performance Indicators	Completion rate, On-time delivery %

3.8 Page: Editors (/dashboard/admin/team/editors)

Page Header:

- Title: “Editors”
- Subtitle: “Video editors in your team”

Content Sections:

Section	Content
Stats	Total editors, Tasks completed, Avg turnaround time
Editor Table	Name, Email, Tasks Completed, Avg Turnaround, Current Workload, Rating, Status, Actions
Workload View	Visual indicator: Available/Busy/Overloaded per editor

3.9 Page: Calendar (/dashboard/admin/calendar)

Page Header:

- Title: “Calendar”
- Subtitle: “Schedule deadlines and tasks for your team”
- Actions: [+ New Task] [Today] [◀] [▶] [Month/Week/Day ▼]

Content Sections:

Section	Position	Content
Calendar Grid	Left (70%)	Full month view with color-coded events. Click date → Create task modal. Drag event → Reschedule.
Upcoming Sidebar	Right (30%)	Today' s events, Tomorrow' s events, This week' s summary
Event Legend	Bottom	 Deadline,  Meeting,  General,  Review

Event Types & Colors:

Type	Color	Description
Video Deadline	Red	Assigned to user, linked to project
Meeting	Amber	Team meetings, reviews
Review	Blue	Project review sessions
General	Green	Other tasks, reminders

3.10 Page: Create Scheduled Task (/dashboard/admin/calendar/new)

Layout: Modal or full-page form

Form Fields:

Field	Type	Required	Notes
Task Title	Text	Yes	e.g., “Q3 Promo Deadline”
Task Type	Radio	Yes	Video Deadline / Meeting / Review / General
Assign To	Select	Yes	Dropdown of all workspace members
Related Project	Select	No	Optional link to existing project
Start Date/Time	DateTime	Yes	When task starts
End Date/Time	DateTime	Yes	Deadline
Priority	Radio	Yes	Low / Medium / High / Urgent
Description	Textarea	No	Instructions for assignee
Reminders	Checkboxes	—	24h before, 1h before, At deadline

Actions: [Cancel] [Create Task]

On Create:

- INSERT into scheduled_tasks
- Notification sent to assignee
- Event appears on calendar

3.11 Page: Workspace Settings (/dashboard/admin/workspace-settings)

Page Header:

- Title: “Workspace Settings”
- Subtitle: “Configure Acme Corp”

Content Sections:

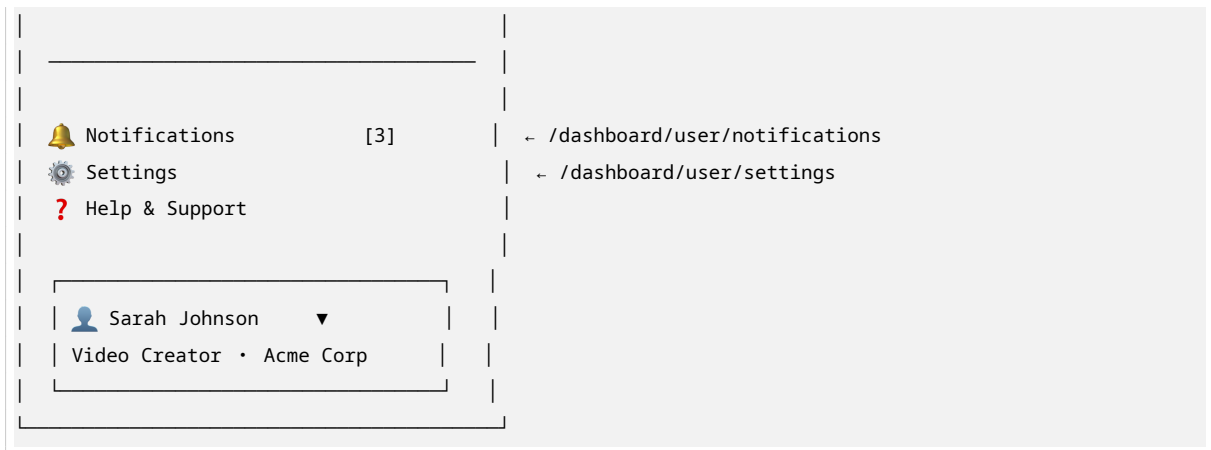

Section	Content
General	Workspace name (read-only), Description, Default project settings
Members	Invitation settings, Default role for invites, Auto-approve invites
Notifications	Default notification preferences for new members
Export	Export workspace data (CSV/JSON), Backup options

4. User Portal

Theme: Light sidebar (bg-white), Blue accents (text-blue-600)
Indicator: Sparkles icon ✨ + workspace name
Context: Personal workspace — creates videos, manages own projects

4.1 Navigation Menu

✨ USER: Acme Corp [≡]	← Topbar
🏠 Dashboard	← /dashboard/user

📁 Upload & Publish	← /dashboard/user/publish/upload

4.2 Navigation Items Detail

#	Icon	Label	Route	Badge	Active Pattern
1	LayoutDashboard	Dashboard	/dashboard/ user	None	Exact match
2	Clapperboard	My Projects	/dashboard/ user/projects	Project count	Starts with /projects
3	PlusCircle	New Project	/dashboard/ user/projects/ new	None	Exact match
4	Share2	Publishing Hub	/dashboard/ user/publish	Scheduled posts count	Starts with /publish
5	Upload	Upload Video	/dashboard/ user/publish/ upload	None	Exact match
6	Bell	Notifications	/dashboard/ user/ notifications	Unread count	Exact match
7	Settings	Settings	/dashboard/ user/settings	None	Starts with /settings

4.3 Page: User Dashboard (/dashboard/user)

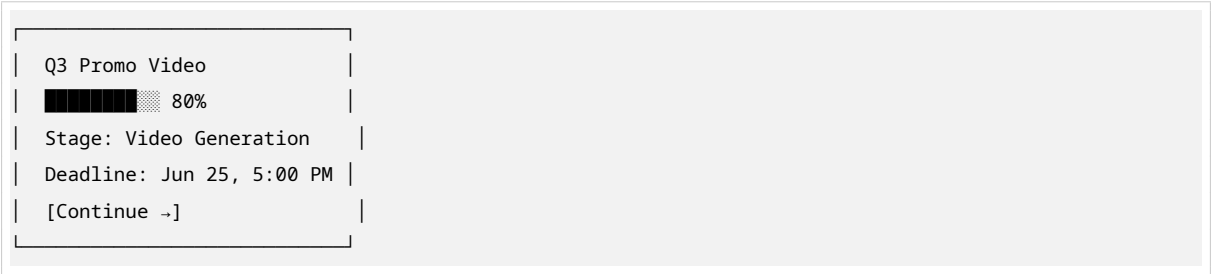

Page Header:

- Title: “Welcome back, Sarah!”
- Subtitle: “Here’s what’s happening with your projects”
- Actions: [+ New Project] [Upload Video]

Content Sections:

Section	Position	Content
Stats Row	Top	My Projects, In Progress, Completed, Published This Month
Continue Working	Left (60%)	Cards of 2 most recent in-progress projects with progress bars and “Continue” buttons
Upcoming Deadlines	Right (40%)	List from admin calendar: Today (red), This week (amber), Next week
Recent Activity	Bottom	Personal activity: “You completed voice for ‘Q3 Promo’ –2 hrs ago”

Project Card (Continue Working):

4.4 Page: My Projects (/dashboard/user/projects)

Page Header:

- Title: “My Projects”
- Subtitle: “All your video projects”
- Actions: [+ New Project] [Filter ▼] [Sort ▼]

Content Sections:

Section	Content
Filter Bar	Search, Status filter, Stage filter, Priority filter, Date range
Project Cards	Title, Description excerpt, Status badge, Progress bar, Stage indicator, Deadline, Actions (View, Edit, Duplicate, Delete)
Empty State	“No projects yet. Create your first project!” with illustration

Status Badges:

Status	Badge Color
Active	Blue
Completed	Green
Archived	Gray
Overdue	Red

4.5 Page: Create New Project (/dashboard/user/projects/new)

Page Header:

- Title: “Create New Project”
- Back link: “← Back to My Projects”

Form Fields:

Field	Type	Required	Notes
Project Title	Text	Yes	3-100 chars
Description	Textarea	No	Max 500 chars
Priority	Radio	No	Low/Medium/High/ Urgent. Default: Medium
Deadline	DateTime	No	Optional
AI Script Generation	Toggle	No	ON = show AI options, OFF = skip to manual

AI Options (when toggle ON):

Field	Type	Required
Topic	Text	Yes
Tone	Select	Yes
Professional/Casual/Energetic/ Persuasive		
Target Duration	Slider	No
30s - 10min		
Language	Select	No
Default: English		

Actions: [Cancel] [Create Project]

4.6 Page: Project Detail / Timeline (/dashboard/user/projects/[id])

Page Header:

- Title: Project name

- Meta: “Created Jun 20, 2026 ·Last updated 2 hours ago”
- Actions: [Edit Details] [More]

Content Sections:

Section	Content
Visual Timeline	Horizontal stage tracker: Idea → Script → Voice → Video → Edit → Publish. Each stage: icon, label, status, date, action button
Current Stage Panel	Large card showing current stage details and primary action button
Project Info	Priority, Deadline countdown, Progress percentage bar
Quick Stats	Word count, Audio duration, Video duration (as available)

Timeline Stage States:

State	Visual	Action Button
Completed	Green checkmark, filled circle, date	“View” or “Play”
Current	Blue pulse, filled circle, “Current” label	“Continue” or “Start” (primary button)
Locked	Gray circle, dashed border	Disabled “Locked”
Pending	Gray empty circle	Hidden

Example Timeline:

					
Idea	Script	Voice	Video	Edit	Publish
Done	Done	Done	Current	Locked	Locked
Jun 20	Jun 20	Jun 20	In Prog	—	—
[View]	[View]	[Play]	[Continue]	[—]	[—]

4.7 Page: Script Generation (/dashboard/user/projects/[id]/script)

Page Header:

- Title: “Step 2 of 6: Script Generation”
- Subtitle: “Generate or write your video script”
- Back link: “← Back to Project”

Content Sections:

Section	Position	Content
Configuration Panel	Left (45%)	Topic input, Tone selector (buttons), Duration slider, Language select, Additional instructions textarea, Generate button
Output Panel	Right (55%)	Generated script display area, Word count, Estimated duration, Regenerate button, Edit Manually button, Approve & Continue button
OR Divider	Center	“—OR —”
Manual Option	Bottom	“Write Script Manually” button → navigates to Script Editor

Tone Selector:

[Professional] [Casual] [Energetic] [Persuasive] [Humorous] [Educational]
(Selected: Professional - blue, Others: gray outline)

4.8 Page: Script Editor (/dashboard/user/projects/[id]/script/edit)

Page Header:

- Title: “Edit Script”
- Subtitle: “Write or refine your script”

Content Sections:

Section	Content
Rich Text Editor	Headings, bold, italic, lists. Word count auto-updating. Estimated duration (word count / 150 wpm)
AI Assistant Sidebar	“Improve this paragraph”, “Make it shorter”, “Make it longer”, “Change tone” buttons
Actions	[Save Draft] [Mark Complete →]

On Complete:

- UPDATE project_stages SET script = ‘completed’
- UPDATE projects SET status = ‘scripting’
- Redirect back to Project Detail (Voice stage unlocked)

4.9 Page: Voice Generation (/dashboard/user/projects/[id]/voice)

Page Header:

- Title: “Step 3 of 6: Voice Generation”
- Subtitle: “Convert your script to natural-sounding speech”

Content Sections:

Section	Position	Content
Script Preview	Top	Read-only display of approved script (150 words)
Settings Panel	Left (45%)	Voice provider select, Voice model dropdown, Speed slider (0.5x - 2x), Pitch slider (-10 to +10), Emotion select
Preview & Output	Right (55%)	Status indicator, Audio waveform player, Duration display, Regenerate button, Approve & Continue button

Voice Model Dropdown:

Adam - Professional Male (US)
Sarah - Warm Female (US)
James - Energetic Male (UK)
Emma - Calm Female (AU)
[More voices...]

4.10 Page: Video Generation (/dashboard/user/projects/[id]/video)

Page Header:

- Title: “Step 4 of 6: Video Generation”
- Subtitle: “Generate your AI video with avatar and scene”

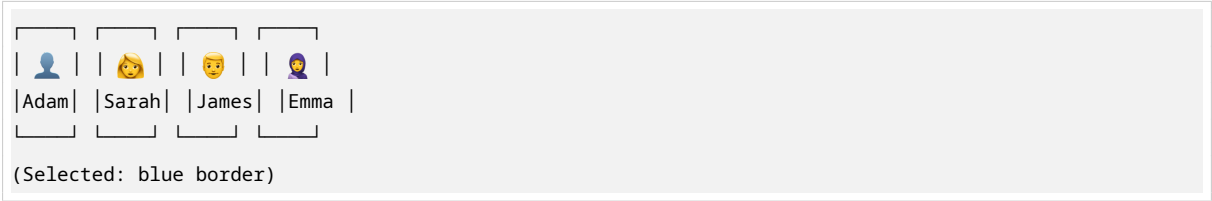

Content Sections:

Section	Position	Content
Voice Confirmation	Top	Audio player with “Confirm this voiceover is correct” checkbox
Settings Panel	Left (45%)	Video provider select, Avatar/character grid, Background/scene grid, Resolution toggle (720p/1080p/4K), Additional assets upload

Table 33 – continued

Section	Position	Content
Preview & Output	Right (55%)	Status indicator, Video player, Duration, Regenerate button, Download button, Approve & Continue button

Avatar Grid:

4.11 Page: Edit Request (/dashboard/user/projects/[id]/edit)

Page Header:

- Title: “Step 5 of 6: Send for Editing”
- Subtitle: “Choose how you want your video edited”

Content Sections:

Section	Content
Video Preview	Top –player showing generated video
Choice Cards	Two large cards side by side: AI Editing (Subagic) vs Human Editor
AI Editing Card	Icon: Robot, Title: “AI Editing”, Features list, Best for, [Select AI Editing] button
Human Editor Card	Icon: Person, Title: “Human Editor”, Features list, Best for, [Select Human Editor] button
Selected Form	Appears below chosen card

AI Editing Form:

Field	Type	Required
Instructions	Textarea	Yes
Style Preset	Select	No
Cinematic/Vlog/Corporate/ Social		
Enhancements	Checkboxes	—
Auto color, Noise reduction, Stabilization, Background music		

Human Editor Form:

Field	Type	Required
Select Editor	Dropdown	Yes
Available editors list		
Instructions	Textarea	Yes
Priority	Radio	No
Normal/Urgent		
Deadline	DateTime	No
Optional		

Actions: [Cancel] [Send for Editing →]

On Send:

- INSERT into editing_tasks
- Editor receives notification
- Project status: “Editing - Pending”

4.12 Page: Publishing Hub (/dashboard/user/publish)

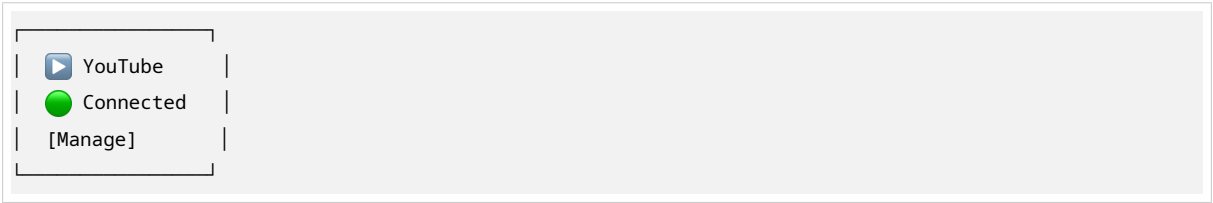

Page Header:

- Title: “Publishing Hub”
- Subtitle: “Publish and schedule your videos”

Content Sections:

Section	Content
Action Buttons	[📺 Publish Generated Video] [📺 Upload & Publish] —large cards
Platform Status	Grid: YouTube, TikTok, Instagram, LinkedIn, Facebook, Twitter/X —each with connection status (Connected/Disconnected/Reconnect)
Publishing History	Table: Video thumbnail, Title, Platform, Status (Published/Scheduled/Failed), Date, Views, Actions (View, Stats, Delete)

Platform Card:

4.13 Page: Publish Form (/dashboard/user/projects/[id]/publish)

Page Header:

- Title: “Publish: Q3 Promo Video”
- Subtitle: “Configure and publish to social platforms”

Content Sections:

Section	Content
Video Preview	Top —player with video
Platform Selector	Multi-select checkboxes: YouTube, TikTok, Instagram, LinkedIn, Facebook, Twitter/X
Per-Platform Tabs	Tab per selected platform with specific fields
Common Fields	Title, Description, Tags (comma-separated), Thumbnail (upload or frame select)
YouTube Tab	Visibility (Public/Unlisted/Private), Category, Tags, End screen
TikTok Tab	Caption, Hashtags, Privacy, Allow comments/duet/stitch
Instagram Tab	Caption, Hashtags, Reels/Feed/Stories selector
LinkedIn Tab	Headline, Description, Visibility
Schedule	Radio: Publish Now / Schedule for Later (datetime picker)

Actions: [Save Draft] [Publish Now →] or [Schedule →]

4.14 Page: Upload Video (/dashboard/user/publish/upload)

Page Header:

- Title: “Upload & Publish”
- Subtitle: “Upload your own video and publish to multiple platforms”

Content Sections:

Section	Content
Video Uploader	Drag & drop zone, format validation (MP4, MOV, AVI), max size warning, progress bar
Thumbnail Uploader	Drag & drop, or “Select frame from video” button
Platform Selector	Same as Publish Form
Metadata Forms	Same per-platform tabs as Publish Form
Schedule	Same as Publish Form

4.15 Page: User Settings (/dashboard/user/settings)

Sidebar Tabs:

Tab	Route	Content
Profile	/settings	Avatar, Name, Email (read-only), Phone, Bio
Security	/settings/security	Change password (especially for temp passwords), 2FA
Social Accounts	/settings/social	Connected platforms (YouTube, TikTok, etc.), Connect/Disconnect buttons
Notifications	/settings/notifications	Email preferences, In-app, Push, Digest frequency
Preferences	/settings/preferences	Default project settings, Language, Timezone

5. Editor Portal

Theme: Dark sidebar (bg-zinc-900), Violet accents (text-violet-400)
Indicator: Pen icon  + workspace name
Context: Task-focused — minimal nav, maximum editing workspace
